I believe that councillors for Wellington should represent the whole of Wellington. At present there town boundary of Wellington is covered by two divisions - Wellington and Rockwell Green and Blackdown and Neroche. This causes confusion particularly for those town residents covered by Blackdown and Neroche and also makes it harder for their to be a consistent representatives voice for the town. Also the Blackdown and Neroche division covers a large geographical area meaning those residents living in the area of Wellington in that division may not get the representation they deserve
