## Comment text:

Local bus stopped and then reinstated on a reduced timetable

All toilets closed in cheddar, (one in gorge kept open due to filming) not good enough all local villages manage to maintain their toilets yet cheddar with 500,000 visitor a year might not.

The recycling centre was under threat of closure, we still don't know the outcome to this decision (without cheddar would be a 20mile round trip to the nearest one) The councils all joining forces was voted against by local people and yet still happened.

No help with boy racer in the gorge although this has been on the local plan since 2011.

When are the councils ever going to do something for local people?

You can see why local people are now feeling disconnected with the local and parish councils
