## Comment text:

**Related subject:** Brushford, Somerset

We feel that Brushford should be kept inline with the rural communities to which it is already associated. I regularly attend the Exmoor LCN meetings and it can be seen by attending these meetings the extraordinary amount of good works and excellent outcomes that can be achieved by local Parishes and Towns working together for the benefit of all concerned. It would be a tragedy for the residents of our communities if the boundaries were to be disturbed to the extent that all of the good work already achieved was cast asunder by those with the power to do so not coming to our communities to understand how we live. We strongly request that we are kept with our rural links and all that those links mean to us.
