Clatworthy Parish Council has canvassed the views of local people. We feel close alignment with the rural parishes of Exmoor as our communities are small, employment is largely around hill farming, equestrian and rural pursuits, hospitality and small businesses working from home. Our problems are similar, highways and hedgerows are always an issue for road safety and, in winter adequate gritting of roads is essential. With no public transport, getting access to medical, social and educational facilities can be problematic. Since Clatworthy's inclusion in the Exmoor LCN, we have developed much greater community cohesion than previously experienced when we were aligned with Wiveliscombe. Our concerns are similar and solutions relevant to where we live. We recommend continuing being aligned with the hill communities of Exmoor.
