## Comment text:

**Related subject:** New councillor numbers

55 councillors?????? We need less, not more. I never see or hear from my councillor. I'm sure he could double his patch without any further commitment.

I will be really disappointed if we, the public, in such hard times will be expected to pay for even more councillors. No doubt the council tax will be going up the max amount for 2925. We have that to look forward to in the new year.

Please do not go for more councillors. You can even out their workloads by giving them a bigger patch, not smaller.

This is not what people are looking for.
