Delighted to see on the map that Newport is again united. Thrilled.

The split has been dreadful. We are in the north. We have had Tory representation in theory but actually those council members seems only to be interested in the large land owners of the villages. They seem to have no interest whatsoever in us Townsfolk north of the Wolverton Road.

The only joy we have had is to contact the LibDem Council people in the south of the town. They are very active and do care about us in the north of the town even though they are not elected to represent us. It's been a dreadful split as far as we're concerned.
