Related subject: Redhouse park (Hanslope and New Bradwell / Great Linford / Newport Pagnell)

I live in the Newport Pagnell North & Hanslope Ward. Though I understand why this ward is no longer acceptable, and I am pleased that my own address is included within the new Newport Pagnell Ward, I have some concerns about the ward patterns across the M1. In particular, including Redhouse Park with the proposed Great Linford Ward is questionable. Residents of Redhouse Park seem to look in every direction except south (Great Linford) for their services; many children attend Portfields School in the north of Newport Pagnell, many families shop and see a doctor in Oakridge Park, and many turn north towards the Linford Lakes and Stanton Low for leisure. Other than the parish council, Redhouse Park has very little in common with Great Linford - in their recent parish survey, no residents of Redhouse Park responded. From conversations I've had as a resident, I expect you will receive a greater number of submissions from those living in Redhouse Park to your proposals than the zero GLPC received! I hope you'll consider linking Redhouse Park to Oakridge Park, as well as the rural north, as this more accurately reflects their goods and services area and identity.
