Organisation Name: (District or county councillor)

Comment text:

I have already E-Mailed one suggestion to you this is a better explanation why the boundaries don't need to change for my ward Brambles & Thorntree. I have 4 schools on the ward 4 blocks of well used shops not including the new one stop. Each of these shops sell alcohol we have close on 5.400 residents not counting the 106 new homes which could mean another 212 residents not including the 12 homes on Loxley road an extra potential 24 residents, not counting the extra 17 houses on Pallister ave a potential 34 new residents. Then also the 39 bungalows 13 housing are building when the flats are demolished. There is a field that can be built on behind Cargo fleet club (Cargo fleet lane. This ward is the most deprived ward in the town if not the Northeast. We also have no youth provisions which I have been fighting for , for the last 5/6 years. Lots of residents on Bramble's farm have relatives in Pallister Park as do residents in Thorntree and Boyds Estate this gives a big connection with all the estates in this ward. Town farm allotments has always been a part of Thorntree. We don't need to change boundaries it will make no difference to how the estates are managed. It is down to us councillors to help make these changes. I have assisted in rehoming about 12 / 13 people from three bed homes to bungalows. I have assisted in moving people into independent living dwellings. This ward does not need a boundary change we do perfectly well as we are yes there is work to be done but it is the same for every ward across the town. Changing the boundaries will only make a bad situation worse. I'm a Thorntree born and bred guy bought the house I was born in been here for 73 yrs I have seen so many changes one of the worst ones was closing of the youth club a big labour mistake. But also this boundary change will come at a huge cost to the MBC Especially with our present financial situation. And the bad CQC report into adult social care which states improvements are needed. Instead of looking at boundary changes try looking into how improvements can be made for our futures because it is todays children they will be the ones who might become councillors they are the ones being let down.

Regards

Graham Wilson
Cllr Brambles & Thorntree
