Related subject: Proposed revised ward boundaries

I am in disagreement with the proposed changes to divide the current Hemlington ward into two separate wards with the proposed new Hemlington North represented by one councillor, whilst Hemlington South and Stainton be represented by three councillors. This is unfair and not equitable.

Having just one councillor leaves the residents at risk of a poor non existent service.

Residents who identify as living in Hemlington but who's properties come under the Stainton ward often resort to contacting the Hemlington Councillor for support, as they are either unaware that they should go to the Stainton councillor or have attempted to do so and recieved no support. At a recent meeting within the Stainton ward comments were made residents were opposed to joining Hemlington as his residents don't and won't visit Hemlington. This will not provide a cohesive community for the neighbourhood and residents of Hemlington.
