I am horrified to find out that you are proposing to break up our joint community.

The Parish councillors of Headon, Upton Grove and Stokeham have worked together for years in the common good of all our villages. We share a joint neighborhood plan which guides our planning outlook, we share the costs and services of a common lengthsman to keep our villages tidy.

We share the same village hall and joint functions along with cooperation on numerous previous projects.

Some of our councillors have almost 50 years of service dedicated to our local joint community.

We are totally against this proposal.
