Related subject: Carlton in Lindrick

As a fairly new resident, since 2021 I have noticed there is a link between Carlton and Dinnington for supermarket shopping and more over use of linking to access M1 at Todwick. Carlton appears to be a main vein into and out of Worksop but not seen as a destination. Other than the Village surgery which is overstretched there are no dental facilities, one pharmacy and no central retail. There are however a growing number of housing developments which is increasing traffic and over stretching the Healthcare, transport links, school needs and causing more damage to main routes, more anti social behaviour and crime in the area.
