Related subject: Yew Tree

I think it's up to review the boundary line and also to review the services that are available in the area. Public transport to the rest of Sandwell from you Tree is not always easily accessible. I have found this to be quite difficult in previous months where I have needed to go to citizens advice bureau or to a food bank as in order to access these places I have to travel to get there I didn't have the petrol in my car. And does a single mum with mental health issues I wasn't in the best place to navigate unfamiliar public transport with my toddler. I believe I'm in the West Bromwich constituency but having to go over to Central West Bromwich can be difficult
