As secretary of the above group , which has been running since 2019 , moving Hetton, Cracoe & Rylstone into the mid Craven area would be something we object too. We cover the whole of the Upper Wharfedale area and have members in these villages , who would no longer be classed as being within the Upper Wharfedale area. The B6265 runs through 2 of these villages before it gets to Threshfield , which would then become the 1st village in the Upper Wharfedale area.
