The Dibbinsdale Brook forms a natural boundary to the east of Spital and walks through Brotherton Nature Reserve are enjoyed by many people who live nearby.

The area to the east of the train line includes several cul-de-sacs which are all off a main arterial route called Spital Road, so residents tend to travel a short distance towards Spital crossroads for the convenience store, pharmacy, cafe etc. Also, for those travelling by bus, the 16/16A/17 serves the train station on it's circular route before heading north.

Many consider themselves to be neighbours and the electoral ward boundary to be an anomaly, so this review presents an opportunity to bring the community together.
