Comment text:

"66 new local counsellors".

66 councillors proposed for Wirral? How many are there now and what is the evidence we need more at additional cost. What is the actual job of a councillor? What do they earn, what are the expenses, and what are the hours, and holiday pay?

Above all, Wirral is teetering on bankruptcy and has taken out a £20million loan, whilst directly reducing service and increased cost: this has to be paid back and all local service costs are increasing faster in addition to Management costs, faster than incomes to pay such cost. councillors should be supervised and random checks made.. should have been supervised and all faults and genuine mistake revealed forcefully.
