## Comment text:

**Related subject:** Mortimer Ward

I believe that Mortimer Ward although in area a large ward should remain as it is. The links between the 5 parish councils is strong. From a Councillor point of view each parish links well geographically with each other and each parish deals with similar issues. I have represented the ward since 2015 and I believe it would be difficult to add any other parish to the existing 5 and taking one away would make it very disjointed. With regard to the name of the ward Mortimer is historically important to the area because of the Mortimer family and Mortimer forest which sits in the middle of the ward.
