## Comment text:

**Related subject:** Infrastructure

There are a lot more houses being built in and around Darlington yet there doesn't seem to be any more shopping or car parking facilities etc , residents have to go to Teeside's park for shopping . We also need a new hospital in Darlington you can't even get showered or use the water to brush your teeth in Darlington Memorial Hospital and it has been like this for well over a year . It would also be beneficial to Darlington to have an access road onto the A1 going North maybe from Merrybent to help with congestion in Cockerton which is becoming increasingly dangerous .
