I think boundaries need to change to include the new local plan, so that the extra population can be included in the new boundaries. This, will lead to all wards having increased population, but equally. Rather than the massive increase in population in Weston-super-Mare, Nailsea and Backwell, having to have extra wards and cllrs so to keep the all wards at their current population. I do wonder why Worle High Street is in Kewstoke ward, and not mid Worle. Also why is Mead Field in Banewell ward, which means the MP for Mead Field, Weston-super-Mare, is the Wells MP. That is stupid. Mead Field should have a Weston based MP, and Cllr. I also wonder if Wolverhill would be better placed in Congresbury and Hewish ward, and not Banewell. Because Congresbury isn't getting a population increase, like Banewell, Winscombe, and Sandford.
