## Comment text:

I refer to - Wards, boundaries and revieve of councillors. Although I don't know the reason for this and what it all involves. But I am at this point in time only interested in being able to continue to have a local councillor who represents the political party I have joined. And that this is not going to affect me being able to vote the way and the due date of original Elections. In other words - No delay of any local elections anywhere, many members of the public agree that it is unfair and disgraceful.
