Related subject: Appleton/ Grappenhall

I think it was in the last re-organisation Appleton Thorn became part of the Grappenhall and Thelwall Ward. I became an independent parish councillor for AT and I would attend Appleton Parish meeting even though our Borough Councillors were in the G&T Ward. Appleton Thorn should be part of Appleton Ward, this is where most people in the village shop, kids go to school, catch the bus too (it does not go to Grappenhall), use the rubbish sport facilities etc. Given the expansion of the Grappenhall and Appleton I would hope common-sense would prevail and Appleton Thorn would become part of Appleton Ward again. This will be especially important when plans are being developed which will effect the village and hopefully provide facilities for the village (the Appleton Cross local centre less than a mile from the village. I know housing estates have been built in Appleton and with section 106 money to provide speeding signs for the village but this money appears to be lost. Has this been used by Appleton Parish council instead for the village as its in another ward.
