Related subject: Latchford West

May I please request that consideration be given to re-adopting the historical names originally given to Warrington districts. Appreciating that these have new titles have been adopted for voting district definition purposes, they are generally used for geographical identification. As such they cause much confusion. Where I live in WA4 6DQ it is now entitled " Latchford West" ; nowhere near the village of Latchford. Its proper and historical name is "Wilderspool". Thankyou for your consideration.
