Related subject: New Mowden area

I currently live in college ward and under new proposals would be in Mowden. I don't really feel we align with mowden. We have totally different housing stock and needs vs mowden. We are also way over the other side of carmel road vs mowden. I fear we would not be particularly well represented or connected with our ward. On the other hand, it's not the worst it could be and I could easily live with these changes ??
