Related subject: change of street to Mowden ward

I do not agree with the moving of Woodland Terrace and the streets to the right of Milbank road being moved into Mowden ward. The natural boundary for this road is surely Carmel Road? Mowden is very much a more modern (mainly 1960's onwards) housing estate, whereas the properties that are currently in College proposed to move are pre WW1, my own property was built in 1910. I have lived in the area over 24 years and have never felt aligned with Mowden ward but much more with College and previously with Pierremont ward, the streets names are a bit of a nod to that, Pierremont Crescent, Pierremont Gardens etc. I know from speaking to other residents that they feel the same. It feels like mine and the other streets being moved out of College into mowden are just being lumped in without any thought or knowledge to the make up of the area.
