## Comment text:

**Related subject:** Proposed extension of Mowden ward to include some current College areas

I disagree with the proposal to remove the area enclosed by the north end of Carmel Rd, Millbank, Pierremont Gardens and Woodlands road from College Ward and include with Mowden Ward.

- \* The streets and houses in the area described have a completely different local character from Mowden area.
- \* At primary school level the residents generally look to the Abbey Schools rather than say Mowden.
- \* Transportation issues are different - so concerns in College are less about access to town (it is walkable) and more about concern around parking issues relating to the hospital and 6th form college. Probably more pressing for Mowden is provision of bus services given the greater distance.
- \* Significantly older housing stock so different issues around parking, trees, general environment and infrastructure, access etc compared with Mowden.
- \* Many more large old houses separated into flats / apartments with potential issues associated there.
