Related subject: Houghton

I live with my husband in a ground floor council flat. We are both in our eighties We have lived in the area for ten years. We are both in poor health now but are involved in the community still, especially with Fryer's Field Recreation Area. When my health was better I was involved with looking after the war memorial in the village. I also made poppies with other people which we hung from the chapel in the village for Remembrance. Also have been involved in fund raising activities for various projects in the area. We attend the Remembrance Day service.at the war memorial every year in our mobility scooters and regularly have coffee on Tuesdays and Fridays at the Methodist Chapel. .Many of my friends in the area do the same. Haughton Village and green is our hub and our heart! Without it we are a lesser thing!
