Related subject: Derwenthorpe

I do not think Derwenthorpe should be split as it has it's own community and identity. Geographically it is a separate area. Architecturally the houses are different from other houses. But the main reason is the community. We have a central building called the Super Sustainability Centre (SSC) which supplies heating and hot water to all of Derwenthorpe, and only Derwenthorpe. The SSC also houses communications which supply broadband, TV, Freeview, and telephone lines to all of Derwenthorpe, and only Derwenthorpe. There is also a vibrant social community with uses the rooms in the SSC to meet for all kinds of activities. More can be found on our website <https://derwenthorpe.co.uk/>
