Related subject: University & Heslington

I have looked through the details for the proposed University and Heslington ward which generally makes sense. However I don't understand the boundary at the southern end of Melrosegate where it makes a detour and cuts Matmer Close in half.

It looks as if this has been done to ensure all properties facing Melrosegate are included in the proposed Tang Hall and Derwenthorpe ward, but this doesn't work. All the properties on the east side of Melrosegate around Matmer Close are accessed from Matmer Close, not Melrosegate. This includes the flats above 267-277 Melrosegate. Nos 1-6 Matmer Close share the same access and facilities as Nos 7-18, it makes no sense to split them.

I would suggest that the boundary should be down the middle of Melrosegate with all Matmer Close and the flats above 267-277 Melrosegate being part of University & Heslington ward.
