Related subject: Poppleton

I live on the Langley Gate development. As part of the proposals we would be moved into Acomb west rather than West York Rural. I do not agree with this, the parish have been incredibly helpful with issues that the council have ignored. I feel we have been cherry picked to move into Acomb. The development and values align closer to Poppleton and rural York rather than Acomb. I also feel we're going to be targeted by right wing movements over the next few elections which don't align to the diverse families we have on sight.

I strongly oppose the current plans and this should be rethought.
