Related subject: Paragraph 69 - placement of parts of Upper Poppleton into the Acomb West ward

I am a resident of the Langley Gate estate, which I understand is proposed to be moved from the Rural West York to the Acomb West ward. I oppose to the separation of Langley Gate from the rest of Upper Poppleton which makes no sense at all. Our community at Langley Gate is part of Upper Poppleton and has many links to the community there. We often use facilities in Poppleton village and feel part of the community, for example the community centre, community events, local schools, public transport, train station etc. We are geographically far closer to the centre of Poppleton than to the centre of Acomb. The make up of the Langley Gate community is similar to that of Poppleton, but significantly different to that of Acomb. I understand the changing of the boundary in terms of numbers included within the ward in any event makes little sense, and therefore there seems no reason to separate Langley Gate from the rest of the Poppleton community.
