Comment text:

I currently live in the Langley Gate development and have done for three years. We bought the property with it being in Upper Poppleton. We attend village events, frequent the community centre and our children go to the primary school. I am strongly opposed to the re-categorising of the development into Acomb. Not only is this in direct opposition to how we have integrated into the area, but also we bought a house specifically within Upper Poppleton, which does come at a premium, and being stripped of that impacts our investment into our home.
