Regarding the proposed changes of the langley gate development being moved into acomb west ward from rural west york ward. I wholeheartedly oppose the proposed change and enjoy being part of the poppleton parish and community. To move our areas association with poppleton seems unnecessary and move which frankly infuriates me.

I align with the lib dem representation of our area and frel the councillors have done a great job by the langley gate residence.

I have been racially abused in acomb multiple times and do not wish to align with an area that does not accept me.

I don't want my house price to depreciate and my kids to miss out on schools that they would have available to them with being part of the poppleton parish.

Please do not change what is working so well.
