Related subject: Rufforth with knapton

The new boundary makes no sense to add the residents from boroughbridge road into acomb west ward. To enable this, an odd anomaly has been drawn around this group of houses, whereas the natural boundary would be to continue along the east edge of portal road and join low poppleton lane. You are displacing residents who have always been in rufforth with knapton parish & being actively involved in this. Families here attend school in Poppleton & consider themselves part of the wider poppleton & rufforth with knapton community. The councillors here have done work supporting us. Our house is in the catchment for the school in Poppleton, which is a reason for moving here & being a lucrative benefit for residents here. We do not wish to be moved from rufforth with knapton to acomb west
