Related subject: Change in York boundaries

We have just recently bought a property new build on Langley gate. We are now 5 months on being told we may not be classed as Poppleton but Acomb which we are objecting to as this would have a direct impact on the value of our property and it appears it already having an impact on the sale of the remaining houses. This should have been a discussion with York council before the site was approved. We bought this as we like being part of the Poppleton community and are extremely worried about the impact this will have on us financially so early on after our purchase
