Related subject: Upper Poppleton

I strongly oppose moving into Acomb Parish as I bought a new build less than 2 years ago specifically for the Upper Poppleton address as the community of Upper Poppleton is fantastic and we want ties to a more rural community rather than Acomb. Furthermore another reason we bought the house is because we want our children to go to Poppleton Ousebank school. My eldest child is starting the pre school there in September and I have 2 children who will start school 2027 and 2028 and Carr Juniors given its current Ofsted rating is absolutely not an option for us and if that will become our catchment school then I would rather home school than send them there. Moving home with 2 small children to Upper Poppleton was no mean feat and we did it to provide our family with what we feel are better values and for you to change the parish would mean all of our careful choosing would be for absolutely nothing.
