Related subject: Rural West York

Current proposal is for the Langley gate estate to move from the rural west york ward to the Acomb ward.

I oppose this current proposal for many reasons.

There is absolutely no clear need for the change. Residents of this estate are proud members of the rural parish and members identify with this area much more than the acomb area.

I understand the rationale proposed is due to electoral numbers but this move would leave rural West york around 10% below that average so there is no clear rationale for this move.

This move will lead to many residents moving out of the multicultural, supportive community of Langley gate. York should be proud of this community created and this proposal will lead to a mass exodus of this community as many residents do not identify with the acomb ward.
