Related subject: Upper poppleton Langley gate site

We are against this proposed move as there is no need to change. It wrongly affects many personal areas for us as home owners as we purchased the property when it was under Poppleton and we feel this is unfair. The areas has long historical ties with Poppleton and Manor School area. We remain strongly to the surrounding local areas and want it to remain that way and the rural parish ward rather than the city ward and leaving our area would leave rural west York about 10 percent down below the average with regards to electoral numbers. We are strongly against moving.
