Related subject: Midfield Way, Upper Poppleton (Langley Gate development) – draft proposal to include the area within Acomb West ward

We object to the proposal to place Midfield Way, Upper Poppleton into the Acomb West ward. The area is an established and fully integrated part of the Upper Poppleton community and has no meaningful community, service or social links with Acomb. Residents rely entirely on Upper Poppleton for GP services, schools, shops, transport (including Upper Poppleton station) and community facilities such as the village hall and local pubs. The Langley Gate development (on the former Civil Service Sports Ground site) is clearly part of Upper Poppleton's community structure. Moving this area into Acomb West would artificially divide a coherent community and weaken effective local representation. We therefore request that the area remain within a ward that reflects its strong and established ties to Upper Poppleton.
