Related subject: York outer

I'm confused and disappointed that the Council are needlessly redrawing boundaries that will move my property from York Outer to West Acomb. This will penalise us financially (my recently purchased/built house value and car and home insurances) and move us into a school catchment area that we didn't buy into. We feel an affinity to the village of Poppleton and the rural area, spend with the local businesses and regularly go into the village. The boundaries should not be redrawn and there is no reasonable argument to do so. This proposal must be reconsidered.
