Related subject: Boundary ward changes York -Rural York West ward

- 1 .We chose Upper Poppleton,Langley Gate to re locate to from Cheshire as it is in a part rural village community setting which is similar to our previous home we have lived in for 33 years where we were both very happy raising our family.Poppleton attracted us because of features such as the pretty village itself within walking distance,social centre offering many clubs,organisations ,dentists,doctors,good transport links .A thriving quality area & a safe community that respects the environment & welcomes newcomers.A decent family area with all ages catered for.
- 2,Our house purchase is the most significant expenditure we make and vital that our home remains a good investment & keeps its value in order for us to plan / afford for our future as both myself & my husband are in our 70's.
If at Langley Gate we become part of Acomb West Ward the value of our house would reduce drastically thus affecting us detrimentally.
Car insurance etc would also increase as the crime rate in Acomb Ward is significantly higher than Rural West York .
3. There is a community in Langley Gate both young & old & many of the younger couples have young families & have chosen to live here because of being in the catchment area of the “ good” OFSTEd primary school in Poppleton ,a lovely village school.
If the boundary change was to happen it would be a terrible injustice for all these families who planned long term for their children to be entitled to an education in Poppleton with its community feel & like minded families.
- 4.There is a new development on the old sugar beet area will soon begin with 1,100 new homes .The increase in population therefore will raise the number of residents in Acomb West Ward to the level it needs to be & therefore there is no need for Langley Gate to be included in Acomb West .We at Langley Gate should remain as we are & stay in Rural West York.
- 5.The whole of Langley Gate should not be split up - part in Rural West York & part in Acomb West - it is an entity
