Related subject: POPPLETON vs Acomb

I have recently purchased my family home on the Langley Gate estate [REDACTED]. We moved from Acomb & I bought this house specifically for the rural Poppleton community and schools catchment. Some of my children already attend the Poppleton village school and nursery (careful planning our location so that younger siblings would be eligible when they are of age) We have built strong connections with the rural Poppleton community as well as fellow Langley Gate residents. We paid a property price which reflected the Upper Poppleton address. We politely but strongly object to the provisional plans to change the Ward we have invested living in to be part of West Acomb.
