See attached file - unnecessary admin that will disrupt my community for no obvious benefit

Attached Documents:

- langley.docx

I object to the proposed change of boundary to move most of the Langley Gate development from Upper Poppleton to West Acomb on the following grounds: -

1. I see no real need for this change. It feels like pure 'admin' and effort for no valid purpose or benefit
2. I feel part of Poppleton and am involved in social and community activities there. It would not feel right to continue with that if I am no longer officially part of that community
3. I have had good interactions with the local council on issues that impact me and my family and it would be a shame to lose these connections
4. I am the local Neighbourhood Watch coordinator and as a result of establishing this we have a strong and very coherent community
5. I bought a house and chose to live in rural Poppleton, not within York City
6. I have no children but I understand this disrupts the school catchments with likely worsening of the already bad traffic situation, as parents take their children to school
7. I understand this change will likely result in increases in both house and vehicle insurance. If this is the case I do not accept that I should be impacted in this way due to administration tweaking.
8. It's said to be about balancing elector numbers but there are substantial other developments planned in the area which will make any changes now meaningless
