## Comment text:

**Related subject:** Strongly disagree with the proposal

Just following up again with major concerns as there will be significant impact from the suggested changes. This is unacceptable as chose property based on being upper Poppleton. The changes will not only result in reduction of house prices, will have increase on car insurance, house insurance and many factors that are unfair to the residents with very little reasons for change and no compensation to buyers who bought based on location -nd will potentially experience financial loss as a result. This change is not supported by residents and strongly disagree with suggested changes
