Related subject: Upper Poppleton

We moved in the region 2 years ago to Upper Poppleton and we have been engaged and welcomed by the Poppleton society ever since , i feel more connected to Poppleton region than to acomb , our social life is more connected to there , my kids attend the school in poppleton as well , so to cut us off form there will have a great consequence on us and my children. Our experience on trying to engage with acomb society was not the best and i have experienced a negative reaction to say the least from there as a woman of color . So i wish you consider your decision and leave the Langry gate state within the Upper Poppleton region . Thank you
