Related subject: Rufforth with Knapton Parish

Currently the Parish has two wards - Rufforth (5 councillors) and Knapton (3 councillors). If the proposals for City wards are accepted it is proposed to create a new Boroughbridge Road ward with 3 councillors and a Rufforth and Knapton ward with 5 councillors . This does not make sense as there are only a small number of houses in the Boroughbridge Road area. Also Knapton and Rufforth are two distinct communities with their own identity with councillors representing each ward being resident in their own village. I strongly support the Parish Council's alternative of 3 wards for the Parish _ Rufforth (5 councillors) Knapton (2 councillors) and Boroughbridge Road (1 councillor) . I believe that this provides a far more democratic solution reflecting the number of voters in each of the separate communities within our Parish
