Related subject: Upper poppleton

We purchased our property less than 2 months ago on the Langley gate estate having moved from the west Acomb ward. we have spent years looking for a property in the Poppleton area.

We have paid a premium to buy a property in upper poppleton to be now told that city of York council are planning to change their boundaries and our new home will Potentially be part of Acomb West.

We also pay I high rate of council tax for no extra services. I really am unsure as to the benefit this will have for us as a family and or community. I would really appreciate it if you could consider what it is you're asking of us as a family/community and think how you would feel in our position. I strongly disagree with this proposal and we as a family would like to remain as we are.

Further concerns

- Change to school catchment area.
- Potential increase in insurance fees for vehicles and home.
- Property value decrease.
- Just to name a few.
