As a derwenthorpe resident I feel strongly that derwenthorpe should remain together in one ward..There are a few distinct aspects of life and shared interests in derwenthorpe which would be better understood and served by representation within one ward - the heating system, the relationship with and involvement of jrht, the issues we've had around anti social behaviour, the shared landscape in the estate. Derwenthorpe also has a strong cohesive community identity which would not be reflected in distribution across three wards.
