## Comment text:

**Related subject:** Knapton and Rufforth

I do not agree with the Commissions recommendation in respect of transferring from Knapton and Rufforth Parish to the emerging Acomb West. I have resided in the current parish for 24 years and have been well supported over this time. It is a well developed and familiar relationship with shared values. Together we developed the Neighbourhood Plan, hard work but worth it. We have contributed to our community. All of this appears to be in the process of being overturned. There is no valid reason for changing lifestyles other than to meet fluctating numbers that will result in worse outcomes.

These are troublesome time we live in. I believe there are other matters that are deserving of greater priority given these circumstances but I do question is all of this really.
