Related subject: Upper Poppleton/West Acomb

Recently bought a house in the Upper Poppleton area and completely object to the area now being classed as West Acomb. This change will increase car and home insurance costs. Decrease the value of the property I've just purchased. It also changes school catchment which is one of the main reasons for purchasing this house in the first place. This has multiple negative effects on everyone who has just purchased a house in this area and it is not clear what benefit it has to the council or the public and there is no clear need for this change.
