Related subject: Rufforth and Knapton

I think Trenchard Road and Portal Road should stay with Rufforth and Knapton. This is a distinct community that has strong links with the existing local council. The streets are on the edge of urbanisation but maintain a feeling of being in the countryside and jointly own and maintain land that is adjacent to the fields. The streets are former family quarters for RAF personnel based at RAF Rufforth. Built a safe distance away from the bombs that were kept on the base so there is an historic link to Rufforth. Keeping in this council ward keeps the link alive for future generations. Looking at numbers of citizens in each ward keeping these houses in Knapton and Rufforth helps maintain a balance for the ward.
