Related subject: Proposal for Heslington and University ward

I currently live in Hull Road ward but under the proposed changes I would be in Heslington and University ward. I think the current boundary-Hull Rd itself- forms an obvious boundary, not the edge of Hull Rd park. I live to the north of Hull Rd- the proposed boundary would be at the bottom of my garden. The majority of houses on my street are not student houses and geographically are part of Tang Hall, not the university or Heslington. It makes sense for the whole of Tang Hall to become a single ward but this should include the streets to the north of Hull Rd. Similarly, the whole of Derwenthorpe should be part of Tang Hall, not Osbaldwick.
